

# Freedom Philanthropies

## 2025 GLOBAL IMPACT REPORT

---

Operating a multi-sector humanitarian model addressing food security, healthcare access, and clean water sustainability across vulnerable communities worldwide.

*ENDING. HUNGER. TOGETHER.*

## Our Mission

To restore freedom and dignity by relieving hardship and strengthening communities through access to essential resources delivered efficiently and sustainably.

## Our Vision

A world where every individual has access to the basic necessities of life and the opportunity to build a sustainable future.

## Core Values

### Integrity

Managed with transparency, discipline, and ethical rigor.

### Excellence

High-quality, data-driven programs for real outcomes.

### Dignity

Upholding inherent dignity and centering compassion.

### Collaboration

Building trusted partnerships locally and globally.

### Innovation

Pursuing adaptive solutions via systems thinking.

### Stewardship

Treating all resources as a sacred trust.

## 2025 Global Impact Summary

**16.1M**

Loaves of Bread

**57.8K**

Hot Meals

**24.3K**

Water Beneficiaries

## Global Footprint

Freedom Philanthropies drives measurable, verified change on the ground in 10 countries:

 Afghanistan

 Bangladesh

 Egypt

 Lebanon

 Liberia

 Pakistan

 Palestine

 Sudan

 Syria

 Yemen

Our flagship program providing daily fresh bread to thousands of families through a global network of bakeries.

### Daily Bread

**16.1M**

Loaves Distributed

Total People  
Served Daily

**34,697**

### Hot Meals

Gaza

**50,000**

Egypt

**7,800**

Total Served

**57,800**

### Ramadan Baskets

**7,320**

Baskets Distributed

Providing essential nourishment to families breaking their fasts during the holy month.

### Qurbani Program

**9,000**

Kilograms of Meat

Distributing high-quality fresh Qurbani meat to ensure vulnerable families can celebrate Eid.

*Impact: Stabilizing entire communities by preventing severe malnutrition and enabling heads of households to direct vital resources toward education, shelter, and survival under blockade conditions.*

Installing solar-powered deep water wells to deliver clean, safe water to underserved remote communities.

## Sustainable Impact Through 2025

### Existing Wells (2022-2024)

Individuals Reached **11,767**

### New Wells (2025)

Additional People Reached **12,600**

TOTAL BENEFITING

**24,367**

Individuals with clean water access

**Impact:** Long-term clean water access dramatically improves health, hygiene, and community resilience, allowing families to thrive rather than merely survive.

## Supporting the Next Generation

Our program focuses on sponsoring displaced students to continue their university education. By providing tuition, housing, and living expenses, we ensure conflict does not permanently derail potential.

Equipping these young adults with degrees allows them to become the future doctors, engineers, and teachers their communities desperately need to sustainably rebuild.

### University Sponsorships

TOTAL STUDENTS

**75**

TOTAL ANNUAL FUNDING

**\$135,000**

**Impact:** Preventing generational poverty and a "lost generation" in conflict zones by directly keeping university-age youths on track for professional careers.

Providing free life-saving medicine and mobile clinics to families who cannot access or afford care.

## Healthcare Access (2025)

Aden Region 5,000

Marib Region 2,000

Total Served **7,000+**  
~400 patients/month

**Impact:** Expanded healthcare access for underserved populations, preventing illnesses and treating acute medical vulnerabilities in devastated regions.

# Freedom Farms

## Cultivating Self-Sufficiency

Our sustainable agriculture microloan initiative provides farmers with capital and critical equipment—such as tractors, deep irrigation wells, and greenhouses.

This empowers families to independently feed themselves and cultivate a surplus for local markets, building real long-term resilience.

**Impact:** Establishing food sovereignty and robust local economies that remain resilient against shipping disruptions and international aid shortages.
